FEATURES

BENEFITS

Outstanding audio quality

Super-wideband audio,¹ and an advanced full range 65mm speaker puts you front and center, unscrambling the widest range of frequencies in your voice's natural range.

Full duplex audio

Speak2 75 is engineered with advanced full duplex audio, allowing both sides to speak and be heard at the same time. So your conversations can flow naturally.

Microphone technology

Four state-of-the-art beamforming microphones and the very latest digital signal processing algorithms effortlessly harnesses every change in voice tone, so every nuance is picked up. Innovative noise reduction technology keeps background distractions at bay.

Microphone quality indicator²

The intuitive 360-degree light ring shows you clearly when you're coming across loud and clear, and when you need to huddle in a little closer.

Voice level normalization

With our latest cutting-edge Voice Level Normalization technology everyone can be heard equally whether they speak with quiet confidence or enthusiastic energy.

Certifications

Speak2 75 is certified for all leading virtual meeting platforms and available in a Unified Communications or Microsoft Teams certified version for seamless connectivity and collaboration.

SPEAK2 75

The next-generation professional speakerphone
