Jabra Video Solutions Guide

NOVEMBER 2025

START

Transform your office spaces with Jabra into professional collaboration zones

Optimizing Zoom collaboration

Companies are reimagining their online and in-person meeting technology and spaces to optimize collaboration for hybrid working teams. Helping employees stay productive and collaborative is a leading priority for companies around the world.

Innovative video experiences

Jabra and Zoom have a long and successful track record of working together to develop industry-leading solutions. Our PanaCast family of video devices combine outstanding video experiences with simple set up, deployment and management, to enable you to get the most from your collaboration investment from the word go.

Certified solutions

Jabra video solutions are fully certified for Zoom, showing they are proven to deliver superior performance and reliability with the Zoom platform.

80%

of knowledge workers waste time looking for a properly equipped meeting room¹

80%

of all meetings are either fully virtual or hybrid³

Only
13%

of meeting rooms worldwide are equipped for video conferencing²

“We are pleased to collaborate with Jabra to deliver solutions optimized for Zoom and Zoom Rooms that enhance our customers’ experiences”

Nick Chong, Chief Services Officer, Zoom

PanaCast 50 VBS.

Inclusive meetings at your fingertips

Our award-winning PanaCast 50 video bar is now available as an all-in-one room system with a touchscreen control tablet, intelligent AI experiences and a state-of-the-art onboard Android compute for an engaging and easy-to-use meeting room solution.

The PanaCast 50 VBS bar only can be used with touchscreens and mobile carts to create a custom setup.

ANDROID • ALL-IN-ONE VIDEO BAR SYSTEM • CONTROLLER

- **Unique 180° field-of-view** covers every part of the room so everyone in your meeting space is on camera in high-definition Panoramic-4K
- **Intelligent features including Dynamic Composition, Intelligent Zoom, Virtual Director, and Zoom Smart Gallery** help remote participants follow the on-screen action. **Intelligent Meeting Space** enables you to customize room boundaries so only people inside the specified area are included in the meeting - ideal for glass-walled rooms
- **Touchscreen-activated Jabra Control IP touchscreen tablet** lets you start, share content, and end meetings with one quick tap. Tablet comes pre-loaded with Zoom Rooms software. BYOD access from your laptop available
- **Four powerful speakers in a zero-vibration stereo setup** flood the room with premium high-definition sound
- **Eight beamforming microphones**, precision voice detection, and intelligent algorithms remove interference such as echo and static
- **Aux-Out for assistive listening devices**² for more inclusive meetings
- **Seven Edge and three Edge AI-enabled processors** power the system and support future feature updates and new platform experiences
- **Real-time anonymous People Count** offers valuable room usage data insights
- **Also available as PanaCast 50 VBS bar only**
- **Multiple mounting options** including wall mount, screen mount or table stand³
- **Certified for Zoom Rooms**

¹ Image courtesy of Avocor ² Limitations apply - refer to Jabra.com for details ³ Table stand and screen mount sold separately.

PanaCast 40 VBS.

The only small room Android video bar that captures the entire room

Meet PanaCast 40 VBS – the all-in-one Android video bar that can maximise even the smallest meeting spaces. Its 180° field-of-view and impressive audio ensure every participant is seen, heard, and included.

AI-powered video features make hybrid meetings more collaborative, productive and lifelike. And its straightforward set-up means you can go from box to first meeting in under 12 minutes with a secure, wall-mounted installation.¹

Plus, with easy and secure management using Jabra+, you can get more from your small rooms today and tomorrow.

ANDROID • ALL-IN-ONE VIDEO BAR SYSTEM • CONTROLLER

- **Unique 180° field-of-view** covers every part of the room so everyone in your meeting space is on camera in high-definition Panoramic-4K
- **Intelligent features including Dynamic Composition, Intelligent Zoom, and Virtual Director, and Zoom Smart Gallery** help remote participants follow the on-screen action. **Intelligent Meeting Space** enables you to customize room boundaries so only people inside the specified area are included in the meeting - ideal for glass-walled rooms.
- **Optional Jabra touch controller** lets you start, share content, and end meetings with one quick tap. Tablet comes pre-loaded with Zoom Rooms software. BYOD access from your laptop available.
- **An array of beamforming, noise-cancelling microphones and an impressive speaker** fills the room with immersive, HD sound, enabling easy, natural conversations where every voice is heard.
- **Aux-Out for assistive listening devices²** for more inclusive meetings
- **Simple set-up from box to first meeting in under 12 minutes¹** with a secure wall-mounted set up
- **Available as PanaCast 40 VBS bar only**
- **Multiple mounting options** including wall mount, screen mount or table stand or tripod³
- **Certified** for Zoom Rooms

¹ Based on GN internal UX testing, March 2025. ² Limitations apply - refer to Jabra.com
³ Table stand and screen mount sold separately.
Please note some intelligent features may not be available when used as a BYOD device.

WHY JABRA

Jabra Scheduler.

Room booking made easy

The Jabra Scheduler is a professional room scheduling panel that makes finding and booking meeting rooms fast and frustration-free. Rooms can be reserved directly on the device or from your calendar, and an integrated lightbar shows room status from a distance.

Add the Jabra Scheduler to your setup and streamline your room scheduling.

SCHEDULING DISPLAY

- **Quick and easy booking.** Book rooms in advance or on demand - make reservations from your calendar or at the device itself
- **Visibility at a glance** with an intuitive touchscreen that clearly displays what's booked and what's coming next. Lightbars on both sides of the panel signal availability from a distance
- **Flexible installation options** include flat or angled mounting. Device may be mounted on wall or glass. Comes with mount included in the box. Integrated cable management
- **Scalable management** with Jabra+ for easy centralized management enabling real-time visibility and updates
- **Optimize your meeting spaces** and enable better room utilization
- **Certified for Zoom Rooms**

WHY JABRA

Personal video collaboration

PanaCast 20 is an intelligent, personal video conferencing device that delivers an incredible range of video experiences, to transform any space into an effective collaboration zone.

PANACAST 20

- **4K Ultra-HD image quality** with a 13-megapixel camera for a crystal-clear video
- **Intuitive AI-powered features.** Intelligent Zoom automatically follows your movements, perfectly framing you in real time. Intelligent Lighting Optimization automatically adjusts your lighting in poorly lit rooms. Picture-in-Picture enables you to share a close-up as your main image while continuing to present in a smaller window
- **Plug-and-play portability.** PanaCast 20 is designed to fit on any screen, with an integrated foldable clip. Comes with a protective carry case
- **Add outstanding audio:** choose from our world-leading Evolve2 headsets or Speak2 speakerphones
- **Zoom certified** so you can connect easily in seconds, for an amazing Zoom meeting experience

WHY JABRA

Why Jabra

We’re Jabra and we’ve been engineering technology that makes life look and sound better for over 150 years. So we know to bring people closer, technology must deliver a more natural and inclusive experience. There’s nothing like being together in the same room, but video collaboration is the next best thing.

Presenting on video from your home office in Toronto? Talking your customers through the latest business plan from a Tokyo board room? Whatever you’ve got going on, we’ve got you covered.

We call it video collaboration, reinvented.
